

the jimibeat lyrics

demons

words by s. csillag, music by the jimibeat

alarm goes off, much too soon
my haunting dreams just were in bloom
ran and hid, when should have stayed
while blackbirds praise a brandnew day

dawn paints beauty in the sky
butt mirror shows my tired eyes
when will times come, i wake up clear
free in mind, with nothing to fear?

one step forward, two steps back
i don't know how to handle that
think it over til i'm on my knees
my demons have a hold on me

day by day goes by so fast
no single moment ever lasts
left are only memories
bittersweet but hard to seize

lay down my head when evening comes
sort out thoughts, the cheerful ones
close my eyes slip into night
in darkness where my demons fight

one step forward, two steps back
i don't know how to handle that
think it over til i'm on my knees
my demons have a hold on me

the
jib
