

the jimibeat lyrics

my shore

words by s. csillag, music by the jimibeat

riding in my camper van, leaving places fast and loud
driving on without a plan, despise the shrieking crowd
salty air should be my guide, leads me to feel free
breaking waves sound day and night, relax and come with me

i take you to the place, where ocean meets the sky
sun-ray caress your face, where seagulls fly so high
riding waves in a turquoise shallow bay
my shore is where I stay

mates come here, to join this life, stepping on the easy side
chillin'out, horizon's near, watch the swelling tide
if you like this way of life, stay for days or years
come back any time you like, welcome back with cheers

i take you to the place, where ocean meets the sky
sun-ray caress your face, where seagulls fly so high
riding waves in a turquoise shallow bay
my shore is where I stay

the
jib
