## you

words by c. csillag, music by the jimibeat

on that day i saw you standing there  
i only thought, that life's not fair  
i was cursed to become your biggest fan  
so sure, you'de never love an average man

you looked up straight into my eyes  
„can you be mine“, wish i had a million trials  
day by day i tried you to tease  
and in the end you sent me to my knees

it's just you, you      your sweet tasting lips  
stick like glue, glue    your swinging hips  
just like voo - doo    when we're together  
yes it's true, true     i want you forever

i found you out of a million faces  
now let me take you to those magic places  
when night comes over, too dark to see  
let's get closer, lay down beside me

i love the mystic taste of your salty skin  
when we become one feels like a sin  
no more words, time seems to stand still  
won't let you go, need that amazing thrill

it's just you, you      your sweet tasting lips  
stick like glue, glue    your swinging hips  
just like voo - doo    when we're together  
yes it's true, true     i want you forever
